EMPLOYMENT HISTORY

2019 to Present Solis Marine Consultants, Singapore
Marine Consultant, Master Mariner

He brings his significant experience as chief officer and superintendent of all aspects of heavy lift vessel operations world-wide. That has included the planning, loading, securing, transportation and discharge of all types of large and heavy cargoes. He also has experience with related shipping issues and Marine Warranty Services (MWS). As master, he has had command of a number of vessel types carrying out delivery voyages. His experience as a surveyor has included the investigation of cargo and machinery issues on behalf of owners and insurers.

2012 to 2019 Hansa Heavylift Asia - Singapore
Cargo Superintendent/Port Captain

Providing technical support to the commercial team commencing with preliminary transportation feasibility studies through to the full coordination of the planned operations on-site and onboard the vessel during all phases. These operations included:

- Cargo quality (damage- and loss prevention)
- Stowage planning and monitoring of vessel performance
- Supervising and coordination of vessels during loading and discharging operations
- Providing technical advice and support to the commercial team
- Operational hazard- and technical meetings
- Liaising with stevedores, agents, lashing companies, MWS and other all other parties involved with general cargo and project cargo damage, hull failure, stability problems and anchor damage to subsea pipelines

2006 to 2012

Redwise Maritime Services B.V., The Netherlands

Chief Officer and Master, On-site ship delivery superintendent/marine surveyor

Chief Officer and Master, of a number of different vessel types, for worldwide delivery voyages. On-site superintendent for delivery projects assisting client/owners with the vessel's final acceptance and as marine surveyor carrying out inspections of vessel and cargo on behalf of insurance, cargo owner and marine agencies. Onboard coordination of repair and modification works and assisting owners with all vessel surveys. Preparation of vessels for passages subject to possible piracy attacks.

2000 to 2006

Jumbo Shipping (Kahn Scheepvaart B.V.), The Netherlands

Apprentice to Chief Officer

Experience gained on board the company's 'E', 'G' and 'H' class vessels with double heavy lift mast crane's or mast crane/derrick combination having SWL 500 to 800 tonnes combined lifting capacity. Cargoes carried includes offshore equipment, reels and hubs, windmills, cargo/dredging/passenger vessels and yachts, ship unloaders (partial and fully assembled), train locomotives, coke drums, power plant equipment, diesel engines and gas turbines, transformers and their associated general cargo.

1995 to 2000

WeCo Motorsloepen, The Netherlands

Gained experience in the sales, marketing, after sales, maintenance and repair of polyester pleasure crafts. This work included the preparation and polishing of boat coatings for showroom and delivery to owners, seasonal maintenance, engine maintenance, polyester repairs and modifications.
